Education

Bachelor of Science in Biology, May 2015

Summa Cum Laude
Minors in Neuroscience and Biostatistics
Ursinus College, Collegeville, PA 19426
Major GPA: 3.87 Overall GPA: 3.85

PhD Candidate, February 2018

Masters of Philosophy
Yale University, New Haven, CT 06520

Research Experience

Graduate Student Researcher, Summer 2016-present

Lab of Sreeganga Chandra, Yale University, New Haven, CT

- Investigating roles of presynaptic proteins in synapse maintenance and neurodegenerative disease

Undergraduate Researcher, Fall 2012-Spring 2015

Lab of Dr. Rebecca Kohn, Ursinus College, Collegeville, PA

- Investigated the effects of oxidative stress on degeneration of dopaminergic neurons in *C. elegans*

Summer Undergraduate Research Fellow, Summer 2014

Lab of Dr. Shai Shaham, The Rockefeller University, New York, NY

- Investigated probable RAB-35-associated GAPs and the properties of mutant proteins in *C. elegans*

Teaching Experience

Teaching Fellow –

Spring 2018 – Biochemistry and Biophysics (introductory biology course)

Fall 2017 – Neurobiology (upper level neuroscience course)

Fall 2016 – An Issues Approach to Biology (biology for humanities majors)

Yale University, New Haven, CT

Peer Tutor – Fall 2012-2015 – Introductory biology, chemistry and neuroscience courses.

Ursinus College, Collegeville, PA

HHMI-FUTURE Program Mentor/Researcher – Summer 2013 – Lab of Dr. Rebecca Kohn

Ursinus College, Collegeville, PA

Funded by HHMI grant 2013-2015

Peer-Led Chemistry Session Instructor – Fall 2013-2015 – General and Organic Chemistry

Ursinus College, Collegeville, PA

Supplemental Instructor – Spring 2014 and Spring 2015 – Cell Biology

Ursinus College, Collegeville, PA

Teaching Assistant – Fall 2014 – Molecular neurobiology lab

Ursinus College, Collegeville, PA

Grants, Honors, and Awards

NINDS T32 Neurobiology of Cortical Systems Funding Recipient, 2018-2019

Keystone Symposium Scholarship, 2018

Digital Education Innovation Grant, Yale University Center for Teaching and Learning, 2018

Honorable Mention for NSF GFRP, 2017

Honorable Mention for Ford Predoctoral Fellowship, 2017

Honorable Mention for NSF GFRP, 2016

Gruber Science Fellowship, 2015-2018

Yale Medical Research Scholars Program, 2015-2018

Barry M. Goldwater Scholarship Honorable Mention, 2014

Phi Beta Kappa International Honor Society, 2015-present

Tri Beta Biology Honor Society, 2013-present; Chapter Vice President 2014-2015

Nu Rho Psi Neuroscience Honor Society, 2014-present
 Outstanding Student Research in Biology Award – Ursinus College, 2015
 Top Poster Presentation – Thomas Jefferson University Sigma Xi, April, 2014
 Dean's List Ursinus College, Fall 2011-Spring 2015
 Ursinus College Academic Scholarship, 2011-2015

Publications

Gorenberg, E.L., Chandra, S.S. The Function of Co-Chaperones in Synaptic Proteostasis and Neurodegenerative Disease. *Frontiers in Neuroscience*. May 19, **2017**. PMID: 28579939.
 Taguchi, Y. V., **Gorenberg, E.L.**, Nagy, M., Thrasher, D., Fenton, W.A., Volpicelli-Daley, L., Horwich, A.L., Chandra, S.S. Hsp110 Mitigates α -Synuclein Pathology *In Vivo*. *Proceedings of the National Academy of Sciences*. November, 2019.

 Kohn, R.E., **Gorenberg, E.**, Roadcloud E., Dawley, R. The Ursinus College Center for Science and the Common Good: An HHMI supported project engaging science majors in the common good. American Society for Cell Biology. New Orleans, LA. December, **2013**.

Other Experience

Flipped Science Fair – Presented research at a middle school level in a science fair format, 2018
 Yale Journal of Biology and Medicine Podcast – creator, writer, producer (Series on Infectious Disease, Microbiome, Sensory Biology and Pain)
 Yale Journal of Biology and Medicine – Manuscripts editor for December 2016 Issue on Epigenetics
 Because-science.org – blog contributor; Posts include: “Jellyfish and Glowing Proteins,” and “What makes mad cows mad: The story of prions”
 Co-chair of HHMI Med into Grad Symposium, 2018
 Organizer for Yale Department of Neuroscience Retreat, 2016
