To: fellows@science-corps.org

Name

Hassan Karim

Gender

Male

Nationality

USA

EmailHassan.Karim@bison.howard.edu**When did or will you finish your PhD?**

2021

City, state, and country of residence

Washington, DC, USA

University education

PhD | Computer Science - Cyber Security for Mobile Cyber Physical Systems | Howard University | May 2021

Masters of Science | Computer Science - Software Engineering | Howard University | Dec 2019

Bachelor of Science | Information Technology | University of Phoenix | Mar 2006

What are your reasons for applying to be a Science Corps Fellow? (max. 200 words)

I have a passion for both traveling, seeking knowledge, and sharing knowledge. I live by 4 mantras:

* "My Lord! Enrich me with knowledge.." -- Quran, 20:114

* "Whoever travels a path in search of knowledge, God will make easy for him a path to Paradise." -- Muhammad, Ṣaḥīḥ Muslim:2699

* "The parable of the scholar who teaches people virtue but forgets himself, is that of a lamp giving people light while it burns itself." --Muhammad, al-Mu'jam al-Kabir

Its for these reasons that I jumped at the opportunity when I saw it in my inbox.

In addition to your studies, describe any relevant experiences that have prepared you for a Science Corps fellowship (max. 200 words)

I have 27 years of Cyber Security experience. I have taught web development, software engineering, and information security to project managers, librarians, college students, and children.

I have supported courses as a Teachers Assistant on several occasions.

Where do you imagine yourself professionally in the future? Check all that apply.

Doing science in industry
In science outreach

Expand on your selection above and describe where you imagine yourself professionally in the near (2 year) and long-term (10 year) future (max. 200 words)

In the short term, I envision working in an established multi-national company in Asia or Africa as a Cyber security leader (I need to pay down debt). But within 10 years, I will have started my own company developing technology that helps people concentrate using brain-computer-interfaces

CV/Resumé
