## **WORK EXPERIENCE**

### **Industrial Private Sector**

**Maths Ghosts;** Makati, Philippines

( Apr 15 - Present )

Partner: IPR Holding Company.

- Chief Data Scientist & AI / ML Developer.
- Mathematician.
- Project Manager.
- Statistical Programmer.

**Ajend Research & Development;** China, EU, SE Asia, USA

( Jan 14 - Present )

Industrial Researcher: Identifying technical problems and developing solutions for various private and public organizations.

- Actuary: Originated mathematical risk & pricing algorithms for life, car and commercial property products.
- CEO Bulldog: Provided mission critical quantitative analysis and identified critical & nefarious issues for C-level management.
- Commodity Analyst: Analyzed and predicted commodities movements for multinational organizations (oil, steel, equity, etc.).
- Data Scientist: NDA.
- Economist: Fundamental position papers and analysis on related economic, investment & development interests.
- Financial Analyst: Created data analysis, IPR & software for finance, fraud detection, and managerial business intelligence.
- Healthcare Economist:
  - Developed AI / ML methodologies that identified at risk patients.
  - Developed automatic tracking & ordering systems for hospital inventory management.
  - Developed real-time suite of productivity metrics for health care and call center staff.
  - Identified financial fraud in providers both in Rx and client billing irregularities.
- IT Specialist: Admin & Tech providing data management for Wealth Management firms.
- Mathematician: Developed fundamental mathematics to solve industrial problems.
- Portfolio Developer: Created various stock trading strategies for Hedge Funds.
- Pricing Analyst: Analyzed fundamental prices, asset evaluations, market developments, economic trends and reverse engineered competitor pricing models.
- Project Manager: Supervising and managing a staff of 20+ academic and industrial experts spread throughout the world.
- Software Developer: Development of Proof of Concept (PoC) industrial applications and industrial proprietary algorithms in C++, Java, R and Python.

**Three Wineries;** Traverse City, MI, USA

( May 15 - May 17 )

Wine Dinner Emcee:

- Hosted and educated 100+ diners over four hour / eight course meals.
- Wine Server & Sommelier: Hosted VIP tours and private wine tastings.

**Royal & Sun Alliance;** London, UK & **Codan;** Copenhagen, Denmark

( Jan 07 - Apr 08 )

Actuary:

- Originated mathematical pricing algorithms for EU based KASKO, MTPL, CP, etc.

- Information Specialist: Contracted to write advanced algorithms for a variety of operational functions.

**Sunitia Research;** Tallinn, Estonia

( Jan 04 - Aug 09 )

- Data Scientist: Created algorithms for fundamental commodity & product pricing, oil exploration, fraud detection and stochastic asset allocation strategies. Contracted to reverse engineer competition models in multiple industrial sectors.
- Industrial Economist: Focused upon major macroeconomic and telecommunications issues.
- Project Manager & IT Specialist: Managed multiple industrial projects from initiation through completion.

## **Public Sector**

**Governments** (NDA); Various EU and US based government organizations

( Jan 05 - Mar 15 )

- Anonymous Technical Evaluator: Reviewed, scored and evaluated international multi-million dollar/euro projects.
- Economic Analyst: Ghost wrote statistical analysis reports for a number of international organizations with economic and information interests.
- Financial Analyst: Developed metrics to identify fraud as well as the likely culprits.

**Institut Francais du Petrole;** Pau, France

( Jan 03 - Dec 03 )

Assistant Project Manager:

- Developed ontology based meta info systems involving industrial partners from France, Germany, UK, and the Netherlands .

**United States Coast Guard:** USA

( May 91 - Aug 96 )

Naval Officer:

- Head of Health Care Finance & Procurement - MLCAPAC(k); Managed multi-million dollar health care procurement accounts and statistical analysis. Created financial models that allocated financial resources based on objective assets. Accurately predicted medical insurance expenditures and operational costs based on chaotic and unreliable financial data using stochastic techniques.

## **Academic**

**Business Schools and Universities;** Eastern Europe & USA

( May 02 - Oct 14 )

- Adjunct Professor of Statistics: Taught mathematics, operations/project management, and statistics to UG and MBA programs. Loaned instructor for universities throughout Europe covering mathematics, operations & project management, and statistics.
- Associate Professor of Economics: Academic research and taught economics, econometrics, mathematics, and statistics to UG, MBA, and PhD programs.
- Associate Professor of Financial Mathematics: Taught financial mathematics and operations / project management to MBA programs.
- Public Speaker: Represented universities at public gatherings: TED Talks, academic conferences, and technical presentations.
- Weekly Columnist: Wrote economic themed popular literature for a local newspaper.

**Lulea Tekniska Universitet;** Lulea, Sweden

( Jan 00 - Oct 01 )

Head of Software Engineering Department

- Industrial project manager and university lecturer position with overall responsibility of a large academic & industrial research department.

**University of Edinburgh;** Edinburgh, Scotland

( Oct 97 - Jun 99 )

- Mathematics & Statistics ACI, Department of Mathematics & Statistics: Tutored maths and programming to postgraduate & undergraduate students.
- System Administrator/Help Desk - EUCS: Part of a team responsible for university computer operations.

## EDUCATION

**University of Edinburgh;** Edinburgh, Scotland

( Sep 96 - Feb 02 )

- PhD in Applied Mathematics: 1996 US-UK Fulbright Scholar.

**California State University - East Bay ;** Hayward, California, USA

( Jan 94 - May 96 )

- MSc in Mathematical Probability and Applied Statistics: 3.97 on a 4.00 scale.

**United States Coast Guard Academy;** New London, CT, USA

( Jul 87 - May 91 )

- BSc in Mathematics and Computer Science: Graduated with High Honors.
