

Harshad Mayekar

Email: harshadcoevo@gmail.com

Website [Google Scholar](#) [Twitter](#) [ORCID](#)

Interests:

Phenotypic plasticity (evolutionary ecology)

Insect chemo-sensation (neurobiology of behaviour)

Profile

- Interested in both research and teaching. Love writing and tweeting
- Exploring diverse model systems to understand biology

Experience

Visitor

Homi Bhaba Center for
Science Education
HBCSE Mumbai
Maharashtra

Oct 2019 – Dec 2019

- Interaction with students on how to formulate research questions and execute brief but clear projects
- Engage regular discussion of projects through regular “causerie”
- Discussion continued on social media and website forums. Responding and monitoring comments.
- Overlooking diverse model system maintenance.

Student Mentor

IISER
Thiruvananthapuram.
Kerala.

Aug 2014 – May 2018

- Guiding major and minor students (BS-MS) in their projects
- Designing experiments including logistics
- Troubleshoot experimental issues
- Monitor project report drafts

Teaching Assistant

IISER
Thiruvananthapuram.
Kerala.

Aug 2014 – Nov 2016

- Mentoring students in projects related to evolutionary ecology
- Engaging lectures and conduct tutorials
- Grading assignments, supervise exams and maintain student records
- Engage in special classes for students struggling in the subject

Research Fellow

Haffkine Institute for
Training, Research &
Testing
Mumbai Maharashtra

July 2010 – May 2011

- Carried out a minor project: Silver staining of mosquito chemo-sensillae
- Involved in seminars organized for college students on vector biology and disease transmission.
- Presented research results in a conference on vector biology at Jaipur, organized by DRDO.
- Conducted lectures for students visiting the summer Biotechnology program.
