2009-2010 Master from Quaid-i-Azam University Islamabad in Pakistan Studies

200-2008 Bachelor from the University of Punjab in Education, Psychology

What are your reasons for applying to be a Science Corps Fellow? (max. 200 words)

I am a researcher and working on School Education, Curriculum, and Textbooks. Therefore my motivation to join this corps is to contribute my knowledge and learn from other fellows.

In addition to your studies, describe any relevant experiences that have prepared you for a Science Corps fellowship (max. 200 words)

I am from Pakistan and is well aware of our culture in South Asia. I have vast experience in curriculum and Textbook studies through working in schools, conducting interviews with school teachers, and understanding children psychology. Also, I have my own experience of being a student in public schools in Pakistan. Therefore, I believe I would be a better candidate to help and prepare Science crops in preparing curriculum documents.

Where do you imagine yourself professionally in the future? Check all that apply.

Academic scientist in academia

Expand on your selection above and describe where you imagine yourself professionally in the near (2 year) and long-term (10 year) future (max. 200 words)

I imagine myself as a Professor at some University around the world in the discipline of School Education, Curriculum, and Textbooks Writing.
