EDUCATION

Charles Sturt University, Bathurst and Port Macquarie, Australia
PhD, Human-Computer Interaction Expected Dec 2021
BS Honours 1st Class, Computer Science 2017
BS, Computer Science 2016

DISSERTATIONS

PhD “The investigation of a new care robot design approach for alleviating LGBT+ elderly loneliness”
Advisors: Professor Oliver Burmeister, Dr Jenni Greig, Dr Anwaar Ulhaq, and Dr David Tien
BS Honours 1st Class, Computer Science “Dynamic value trade-offs in run-time to provide good, customised patient care with robots”
Advisor: Professor Oliver Burmeister

RESEARCH INTERESTS

Human-Computer Interaction	Aged Care
Artificial Intelligence and Robotics	Diversity and Inclusion
Computer Ethics	Vulnerable Communities
Value Sensitive Design	Semi-Structured Interviews
Health Informatics	Thematic Analysis

HONORS AND AWARDS

Meijers Best Article Prize (awarded by the Leiden Law School at Leiden University, NL)	2021
Australian Government Research Training Program Full-Time Scholarship	2018
Charles Sturt University Honours Scholarship	2017
Honours Academic Excellence Award	2017
Graduation Vote of Thanks speaker	2017
Executive Dean’s Award	2016/17

RESEARCH EXPERIENCE

Charles Sturt University, Bathurst and Port Macquarie, Australia	
Casual Academic , School of Computing, Mathematics and Engineering	2018-present
PhD Candidate , School of Computing, Mathematics and Engineering	2017-present

As Lead Researcher,

1. The investigation of a new care robot design approach for alleviating LGBT+ elderly loneliness
Methods: Nationwide semi-structured, in-depth interviews
Team: Professor Oliver Burmeister, Dr Jenni Greig, Dr Anwaar Ulhaq, and Dr David Tien
2. Dynamic value trade-offs in run-time to provide good, customised patient care with robots
Methods: International online survey and heuristic expert evaluation
Team: Professor Oliver Burmeister

As Researcher,

3. A survey on gender inferences in social media
Methods: International mixed-methods online survey
Team: Assistant Professor Eduard Fosch-Villaronga, Assistant Professor Roger Søraa, and Professor Bart Custers
4. A literature review on sex robots for care
Methods: Narrative review
Team: Assistant Professor Eduard Fosch-Villaronga
5. A Q-study on the ethics of artificial moral agents
Methods: International Q-method online survey
Team: Andreia Martinho, Professor Caspar Chorus, and Associate Professor Maarten Kroesen
6. Technology for homes program evaluation
Method: Participant observations, surveys, and semi-structured, in-depth interviews
Team: Professor Oliver Burmeister, Associate Professor Susan Field, Dr Holly Randell-Moon, Dr Sabih Rehman, Professor Russell Roberts, Dr Anwaar Ulhaq, and Dr Jenni Greig
7. Orange City Council's spark a connection art and dementia program evaluation
Methods: Participant observations and semi-structured interviews
Team: Professor Oliver Burmeister and Dr Jenni Greig
