Name
Dr. Karanveer Dhingra
Email
dhingrakaranveer@gmail.com
Gender
Male
City, state, and country of residence
Sri Muktsar Sahib, Punjab, India
Nationality
Indian
When did or will you finish your PhD?
January 2021
University Education
PhD from Thapar University, Patiala, Punjab, India.
What are your reasons for applying to be a Science Corps fellow?
I want to share my knowledge with students and want to aware the people of diverse cultures about the importance of science in our day to day life. Moreover, I want to explore myself in diverse cultures.
In addition to your studies, describe any relevant experiences that have prepared you for a Science Corps fellowship.
I have published few papers related to the Electric Vehicles. I would like to share the knowledge among students to write research proposals related to electric vehicles. Further, I will aware the students about the importance of these battery operated electric vehicles in Micro-grid and in our daily routine.
Where do you imagine yourself professionally in the future? Check all that apply.
Academic scientist in academia In science education
Expand on your selection above and describe where you imagine yourself professionally in the near (two year) and long-term (ten year) future.

If I got selected I will work on the science projects which will be beneficial for the society. I will teach students and colleagues about the importance of projects for the development of the society. After that I would like to make research groups which can collaborate with each other to work on the large projects.
