

Apply for a Science Corps Fellowship - Entry #631

Name
Alann Rathery
Email
ratherya@roehampton.ac.uk
Gender
Male
City, state, and country of residence
London, United Kingdom
Nationality
French
When did or will you finish your PhD?
October 2022 or April 2023 latest
University Education
PhD in Animal Behaviour/Entomology on the impact of temperature on ants behaviour and physiology at Roehampton University London UK (2023) Master Degree in Animal Behaviour and Wildlife Management at the university of Burgundy in Dijon, France (2019) Bachelor Degree in the Biology of Organism, with a mention in Ecology at the University of Burgundy, Dijon, France (2017)
What are your reasons for applying to be a Science Corps fellow?
I would like to apply to the Science Corps fellowship to improve my abilities to teach which will help in my future academic career, moreover I think it is a good opportunity to transit between a doctoral level and post-doctoral studies. Finally, to my point of view, this is the perfect experience to learn other cultures, while working in a scientific environment.
In addition to your studies, describe any relevant experiences that have prepared you for a Science Corps fellowship.
During my PhD level I have been in charge of some students during their undergraduate project, master research projects and summer interns. I also have been assisting the main lecturer during practical and tutorial which gave me some basic about teaching and also about pedagogy towards students (with different backgrounds, languages and levels)
Where do you imagine yourself professionally in the future? Check all that apply.

Academic scientist in academia

Expand on your selection above and describe where you imagine yourself professionally in the near (two year) and long-term (ten year) future.

In the near future, I imagine myself as a post-doctoral researchers in a lab. On the long-term future, I would imagine myself to be a lecturer or a professor and therefore be teaching at the academic level.
