| ELIZA (with basic preparation of reagents and coating) | At AHRI, EPHI, HPA (Health Protection Agency at Manchester Bacteriology Lab) | Coat Elisa plate wells and do subsequent experimental procedure as per the standard protocol | To MSc students | Publications           |
| Biochemical tests                                      | At AHRI Bacteriology lab                                                     | Undergo experimental procedure as per the standard protocol/SOP                              | To MSc students | Publication of results |

### **Professional Award Obtained**

- For Providing outstanding and continuous contribution in reviewing research protocols through the National Research Ethics Review Committee of The Ministry of Science and Technology of Ethiopia (April 18, 2018)

### **Other Activities of coordination and management at AHRI**

- Bacterial Meningitis (MenAfricar) Consortium research project initial coordinator
- Meningitis Kick of Meeting Coordinator
- Research Laboratory Manager
- Journal Club Coordinator
- Provision of Diagnostic support (together with research team at Armauer Hansen Research Institute/AHRI) to different hospitals and regions of the country when meningitis epidemic and sporadic occurrences are reported
- Participated in consortium research project grant proposal development at UK/NewCastle with CPN Africa on cervical cancer and Kaposi Sarcoma
- Supervision of visiting medical student from Denmark during her three months attachment for seminar writing after attaching on cervical cancer detection and genotyping research activities
- Initial coordination of MenAfricar research in collaboration with AHRI, LSTM
