What are your reasons for applying to be a Science Corps fellow?
Hello. by greatfull. i am living in iran and have (phd) degree in educational administration from tehran university. i was manager my startup in trading human sciences research, but stoped my projects for economic and social cercomestenses in iran, espicially for women.. i want continue these idea and projects in the global level for youngs and graduations . thise is change for undeveloped countries and youngs , jobs and future, and social forume , is better. please support and guide me... by regard. dr.hashemi
In addition to your studies, describe any relevant experiences that have prepared you for a Science Corps fellowship.
My Objective: This reasons for my propose(trading in human science research) has the following main objectives: 1. to increase the participation and representation of women in the different sectors of the sustainable blue economy 2. to increase knowledge and collect data on women's contribution to the sustainable blue economy so as to efficiently foster and mainstream gender equality;

3. to promote and advance gender equality in the sustainable blue economy (e.g., countering gender stereotypes, conscious and unconscious bias, promoting equal pay, addressing poor working conditions, etc.) including through promoting blue career opportunities to girls from early education;
4. to promote women's leadership, entrepreneurship and participation in governance structures and decision-making

Where do you imagine yourself professionally in the future? Check all that apply.

Academic scientist in academia

Doing science in industry

In science outreach

As far as possible from science/education

Expand on your selection above and describe where you imagine yourself professionally in the near (two year) and long-term (ten year) future.

I want to establish an international civilization-building university for the world and for all the youth in the countries of the world. This university is at its own special and unique quality level.
