| <p>I am currently a PhD student in Science in Biotechnological Innovation, with terminal option in Environmental Technologies at CIATEJ, AC. My research focuses on the study and modeling of microbial communities used for the treatment of reduced sulfur compounds.</p> <p>Master in Science in Biotechnological Processes with a specialty in Environmental Bioprocess at UdeG. Work on the recovery of agro-industrial waste as bioenergetic vectors, producing gaseous biofuels.</p> <p>I obtained my undergraduate degree in Biochemical Engineering at the Technology Institute of Celaya, I did a thesis work focused on the study of specialized enzymes for the control of pathogen disease transmitters in food</p> |
| <b>What are your reasons for applying to be a Science Corps fellow?</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| <p>I consider myself a socially and environmentally responsible activist, entrepreneurial and eager to learn and support to create a better world for future generations. I have 8 years of volunteer in the World Organization of the Scout Movement and I love working with young people. Becoming a scientist is a personal goal to become a real and positive agent of change.</p>                                                                                                                                                                                                                                                                                                                                           |
| <b>In addition to your studies, describe any relevant experiences that have prepared you for a Science Corps fellowship.</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| <p>Every year my scout group invites the children of the region to a recreational event where they participate in workshops and fun physical activities. I am in charge of the science workshop, last year I attended more than 150</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |

children in one day, it was crazy but it was worth it. I have also participated in other national events, volunteering in cooking or setting up outdoor activities for young people.

**Where do you imagine yourself professionally in the future? Check all that apply.**

Academic scientist in academia

In science education

In science outreach

**Expand on your selection above and describe where you imagine yourself professionally in the near (two year) and long-term (ten year) future.**

In a research position at a national or foreign institution, I have no problem moving my residence. I want to create scientific outreach programs, give priority to girls and teens to take interest in science.
