

Experienced Research scholar in Synthetic organic and medicinal chemistry from National Institute of Pharmaceutical Education and Research (NIPER) Hyderabad. Zeal to learn new concepts in science quickly and applying innovative ideas for achieving best results. Motivated self-starter with a passion to succeed and desire to excel in the field of medicinal chemistry. I have good communicational, Interpersonal and analytical skills.

KRISHNA KARTHEEK. CH

National Institute of Pharmaceutical Education and Research (NIPER) - Hyderabad, Department of chemical sciences, Hyderabad, Telangana, 500011, India, Phone: +91 9618575990.

Mail: krishnakrthk22@gmail.com

EDUCATION

Qualification	School/College	University/Board	Year of Passing	Percentage Obtained/CGPA
PhD (Medicinal chemistry)	NIPER-Hyderabad	NIPER-Hyderabad	2017-present	7.20
MS.(Pharm) (Medicinal chemistry)	NIPER-Hyderabad	NIPER-Hyderabad	2013-2015	7.26
Bachelor of Pharmacy	Chalapathi Institute of Pharmaceutical Sciences	Acharya Nagarjuna University	2008-2012	72%

Areas of Expertise:

- Synthetic organic chemistry
- Medicinal chemistry
- SAR development of small molecules
- Schrodinger software for molecular modeling
- Enthusiasm to learn bacterial and cancer cell culture techniques
- NMR & LC-MS interpretation of small molecules
- Experience in handling HPLC

Work experience:

NIPER Research fellow

National Institute of Pharmaceutical Education and Research, Hyderabad, Telangana, INDIA
August 2017 to July 2022

- Conducting air, moisture sensitive reactions in synthesis of novel heterocyclic molecules targeting **carbonic anhydrases**.
- Rhodium catalyzed annulations using Iodonium-carbenoids.
- Planned and executed lectures to undergraduate students on advanced and basic chemistry.
- Design multistep organic synthesis for heterocyclic molecules by extensive literature survey.
- Guiding undergraduates for their projects and thesis writing.

Lecturer in medicinal chemistry

Chalapathy Institute of Pharmaceutical sciences
August 2016 to May 2017

- Planned and executed lectures in medicinal chemistry, chemistry of natural products and pharmaceutical analysis to undergraduates.
- Conducting experiments and training undergraduates on different synthetic organic chemistry techniques.

Biocon Ltd.

Analytical Research and development trainee, Generic formulations R&D
May 2015 to November 2015

- Performing various analytical method development studies for solid dosage forms like rosuvastatin and simvastatin drugs.

Eywa pharma private Ltd.

Analytical research associate
December 2015 to July 2016

- Performing analytical development studies of solid dosage forms by using HPLC.
- Maintaining general lab safety and keeping records.
- Online documentation of analytical method development activities.

Achievements:

- Secured prestigious NIPER fellowship for masters programme in Medicinal chemistry with All India rank 205
- Secured NIPER Research fellowship for PhD programme in Medicinal chemistry.
- Secured All India rank 186 in GATE examination conducted by All India Council for Technical Education (AICTE), Government of India.

Scientific skills/Technical exposure:

- **Organic synthesis:** Expert in carrying out various organic reactions including multi-step organic synthesis, heterocyclic chemistry, designing and synthesis of small molecule inhibitors for drug discovery, designing synthetic routes for new classes of compounds and structure-activity relationships (SARs) analysis. Excellent skills in the purification of organic compounds using chromatography, crystallization, and distillation as well as preparative TLC techniques.
- **Analytical techniques:** Experienced in handling the instruments like HPLC (Make: Waters with Empower software & Agilent 1200 series with EZ chrome Elite software & open lab software), UV Spectrophotometer (Make: Shimadzu 1601 with UV probe software), FT-IR, and ELISA Plate Reader.
- **Structural elucidation:** Expert in the interpretation of data using NMR, FT-IR, and Mass spectra
- **Computational chemistry:** Basic understanding and expertise of Molecular Modelling Softwares such as Schrödinger suite, Autodock.
- **Computer proficiency:** Proficient in MS-Power Point, Excel, Word, and scientific data retrieval from various Internet portals using databases such as SciFinder, Reaxys, Science Direct, PubMed, Google Scholar, and Patent database USA (USPTO), India (IPINDIA), Europe (ESPACENET) *etc.* Good knowledge of application software's viz., ChemDraw, Reference Management Software (Zotero, EndNote plus), MestReNova *etc*
- **Scientific writing:** Capable of preparation of lab reports, research proposals, manuscript for publications, patents and posters.

- **Personal ability:** Excellent verbal and communication skills. Maintain good interpersonal relationships as well as capable of performing collaborative and independent research. Capable of identifying technical problems and solving them independently. Experience in supervising postgraduate students in various research projects.

Workshops and conferences

- Participated a seminar on “**IN-VIVO TOXICITY TESTING OF ENVIRONMENT CHEMICALS**” by Dr. Andrew Fogerty, Athlone Institute of Technology, Ireland.
- Participated in International conference conducted by NIPER-HYD on “**DRUGS FOR INFECTIOUS DISEASES**”
- Presented a seminar in **6th International Electronic conference** in medicinal chemistry (**ECMC2020**) conducted by MDPI, SCIFORUM, Basel, Switzerland.
- Presented a poster in International conference on “Next generation therapeutics & Diagnostics” conducted by NIPER-Hyderabad, Telangana, India
- Participated in International Webinar on “Research future with Interdisciplinary Collaborations”, conducted by NIPER-Ahmedabad.

Publications

- Krishna kartheek. Ch, Andrea Angeli, Pavitra S Thacker, Laxman naik. K, Rashmita Biswas, Mohammed Arifuddin, and Claudiu T. Supuran, Design Synthesis, and Biological Evaluation of 1,2,3-Triazole-linked triazino[5,6-b]indole- benzene sulfonamide Conjugates as Potent Carbonic Anhydrase I, II, IX and XIII inhibitors, **Metabolites** **2020,10, 200**; doi:10.3390/metabo10050200, **Impact factor: 4.932**

Supuran, Coumarin-Thiourea Hybrids Show Potent Carbonic Anhydrase IX and XIII Inhibitory Action. **Chemmedchem** **2021, 16, 1252-1256**, doi.org/10.1002/cmdc.202000915. **Impact factor: 3.124**
- Krishna Kartheek Chinchilli, Venkata Nagamani Royyala, Pavitra S. Thacker, Andrea Angeli, Srikanth Danaboina, Priti Singh, Srinivas Nanduri, Claudiu T. Supuran, Mohammed Arifuddin, Design, synthesis, SAR and biological evaluation of Saccharin based hybrids as potent Carbonic anhydrase inhibitors, **Arch. Pharm.** **2022;e2200019**, doi:10.1002/ardp.202200019, **Impact factor: 3.751**
- Krishna Kartheek Chinchilli, Priti Singh, Baijayantimala Swain, Nerella Sridhar Goud, Dilep Kumar Sigalapalli, Abhishek Choli, , Andrea Angeli, Srinivas Nanduri, Venkata Madhavi Yaddanapudi, Claudiu T. Supuran and Mohammed Arifuddin, Development of novel Indole-3-Sulfonamide-heteroaryl hybrids as Carbonic anhydrase inhibitors: Design, synthesis and invitro-screening, **Chemmedchem (Under review)** **Impact factor: 3.466**

PERSONAL DETAILS:

- **Date of birth:** December 26th1989
- **Father's name:** Mr.CH. Sreenivas Rao
- **Spouse name:** Ms.Arunakartheek
- **Languages known:** English, Telugu and Hindi
Hobbies: Playing shuttle, Listening music
