

Daniela Filipa Policarpo Sequeira

Life Sciences | Healthcare | Innovation | Scientific Communication | Project Management |

Address: Zürich, Switzerland

Date of birth: 14/05/1992

Phone number: +41 779 768 020

E-mail: danielaf.sequeira@gmail.com

[linkedin.com/in/daniela-sequeira-735117141](https://www.linkedin.com/in/daniela-sequeira-735117141)

Nationality: Portuguese, Permit C in Switzerland

Summary

- PhD student in Molecular Life Sciences, specialized in human virology and immunology;
- 10 years laboratory experience in molecular biology, cell culture, genetic engineering, cell line characterization, human immune cells handling, flow cytometry, microscopy and data analysis;
- Published several peer-reviewed [publications](#);
- Extensive experience in Science Communication;
- Participation at multiple scientific courses and conferences; including 3 prize-awarded posters;
- Leadership record acquired in event organization and teaching;
- Eager to tackle challenges in different areas such as Scientific Communication, Science Outreach/Education in industry or non-profit organizations.

Education

- **2018-present PhD student. Molecular Life Sciences, ETH/UZH Graduate School.** Switzerland.
- **2013-2015 Master in Medical Microbiology.** Universidade Nova de Lisboa. Portugal.
- **2010-2013 Bachelor in Molecular and Cellular Biology.** Universidade Nova de Lisboa. Portugal.

Work experience

October 2018-present (*defense expected in Summer 2023*)

PhD student. UZH, Switzerland. Lab of Prof. Dr. Urs F. Greber

- Establishment of an *in vitro* infection model of Human Adenovirus in human primary T lymphocytes;
- Expertise in multi-color flow cytometry, high-throughput microscopy and data analysis;
- In total, involved in 6 different projects collaborating internally and with different labs and facilities at the University.

2017-2018

Researcher. ETH DBSSE, Switzerland. Lab of Prof. Dr. Martin Fussenegger

Using Synthetic Biology tools in order to repair human diseases. Managing 3 projects in parallel.

Further experience

Leadership

- Member of the [Life Science Zurich Young Scientist Network](#). Responsible for stakeholder management with several sponsoring companies including acquiring new collaborations resulting in >5K CHF revenue; managing LinkedIn page with >3k followers as part of the Marketing team; appointed team leader in 2021 (leading a team of 6 people). Founder and team leader of a new event in 2022 (leading a team of 6 people). Managing annual budget, strategy, outreach and meeting deadlines. Reporting directly to the board. 2020-present, Switzerland;

- Coordinator at [Native Scientists](#). Includes building a network of Portuguese-speaking scientists, recruiting scientists and teachers, planning annual strategy in Zurich, organizing science workshops for children. Organized the first-ever workshop in Zurich, acquired coordinators for different cities, expanding our network to 5 cities, reaching 100 pupils. January 2021 - present;
- Team leader and Fundraiser for the [Life Sciences Seminar Series](#), Raised >1.5K CHF from University organizations and Life Science companies. Included planning annual strategy, recruiting members, managing social media platforms and writing annual reports to sponsors. December 2019-2021, Switzerland.

Science Communication

- [3min thesis competition](#). 2022. University of Zurich;
- Selected for a flash talk. 14th Adenovirus Meeting. 2021. Virtual;
- Editor and writer of the newsletter for the Molecular Life Sciences PhD program. 2019-2020;
- Event Manager at [Pint of Science Zurich](#). 2019. Switzerland;
- [Skype a Scientist](#). 2018-2020. Online.

Tutoring & teaching experience

- Teaching assistant – theory lessons and practical courses for a total of > 40 students; University of Zurich;
- Supervision of a student for a 5-month internship, included writing a research proposal which resulted in a full-stipend given to the student. 2021. Switzerland;
- Teaching assistant - practical course for 20 MSc students. 2018. ETH;
- Tutoring new BSc students during the University Open Day. 2012 & 2013. Universidade Nova de Lisboa, Portugal;

Consulting experience

- 2-months program consulting in a team of 6 people for a ETH spin-off. Bridge Program from ETH [Graduate Consulting Club](#). 2021, Switzerland;

Relevant courses

- Project Management for Advanced Stage Researchers. 2022. Organized by Dr. Verena Lütschg, *About Tomorrow Consulting*;
- Good Clinical Practice Modules 1 & 2. Universitätsspital Zürich. 2021;
- [Innosuisse Startup Campus](#) - Module 2: Business Concept. 2021. Switzerland;

Languages

Mother tongue: Portuguese; English: Full professional proficiency; German: Elementary proficiency

Hobbies

Trekking, dancing, brunch, stand-up comedy, travelling, yoga, badminton, biking.

Soft skills

Leadership | Communication | Pitching | Team work | Multitasking | Collaboration | Budget management | Team building | Time management | Project management | Resilience | Proactive | Dynamic | Google Suite | Troubleshooting |
