

AMABILE MANIANGA

EXECUTIVE SUMMARY

Over 10 years of my teaching profession, I have played a significant role in obtaining my students goals and their career dreams. With 6 years of experience in lecturing science teaching methodology, chemistry and biological science to undergraduates and diploma students at David Livingstone college of education, Zambia, 7 years of teaching chemistry and biology at senior secondary school, and 5 years of teaching environmental science at junior secondary school, I have worked passionately as a lecturer and teacher with minimum supervision. Am currently a Ph.D. student in school for sustainable development working under school of biotechnology in the photochemistry laboratory at Amrita Vishwa Vidyapeetham, India. As a student in my higher academic level, I have been a committed student who is flexible in working alone and with others as a team to attain and share academic knowledge with others.

EDUCATION

PhD student in Sustainable Development 08/2020 – 2024

Amrita Vishwa Vidyapeetham
Kollam, Kerala

Course work completed GPA; 8.6

- Natural resource management and sustainable livelihood
- Agriculture for sustainable livelihood
- Conceptual foundations and perspectives of sustainable development
- Climate change, impacts adaptations and mitigation
- Human centered design foundations
- Research methodology I and II
- Introduction to Indian culture

Laboratory experience

- Thin layer chromatography
- Solvent extraction - Maceration, Column chromatography, Soxhlet
- Protein extraction/ Acid hydrolysis

WORK EXPERIENCE

Senior Lecturer

04/2017 - 03/2023

Ministry of Education • Livingstone, southern province

- lecturing science teaching methodology, chemistry and biological science to undergraduates and diploma students
- prepare and conduct chemistry and biology laboratory experiments for students
- Prepare teaching notes for each lesson
- prepare study materials for the students for chemistry and science teaching methodology in form of modules
- monitor students on teaching experience in various schools (observe their teaching and check their lesson plans)
- prepare and coordinate continuous assessments and end of year examinations for the students
- Mark examination scripts and teaching practice files for students
- Documented all concerns and incidents and reported them to a senior supervisor

Further work experience

- Performed duties under the Examination council of Zambia of setting biology and science teaching methodology final examinations for colleges.
- Performed duties under the Examination council of Zambia of marking science teaching methodology, environmental science and biology exam scripts for colleges of education
- Attended curriculum professional development programs
- Trained as a Train the Trainer by Zambia Education Enhancement Project (ZEEP) for science teachers

Associations

- Am a member of the Zambia Association of Public Universities and Colleges (ZAPAC)
- Am also a member of Zambia Association of Science Education

EDUCATION

Masters of Biology Education

04/2017 - 05/2019

DMI St Eugene University, Zambia

Masters of Biology with Education: Merit

Research topic

An investigation into the conservation and values of edible indigenous fruit plants; A case of Tamarind

Bachelor of Science Degree

04/2010 - 09/2014

Kwame Nkrumah University, Zambia

Biology major and Chemistry Minor: Merit

SKILLS

- Computer Skills,
- Leadership Skills,
- Decision Making,
- Problem Solving,
- Creativity,
- Teamwork,
- Adaptability,
- Fast Learner,
- Leadership,
- Ability to Work Under Pressure,
- Microsoft Office,
- Good Communication

WORK EXPERIENCE

Science Teacher

05/2009 - 05/2016

- Ministry of Education • Choma, Southern province
- Served as a class teacher for grades 10 – 12
- Taught chemistry and biology to grades 10, 11 and 12
- Prepared lesson plans, continuous assessments and end of term examinations
- marked written exam scripts
- Attended curriculum professional development programs
- Performed duties of a supervisor and invigilator for examination council of Zambia final grade 12 exams

PhD in Sustainable Development

08/2020 – in progress

Amrita Vishwa Vidyapeetham

Kollam, Kerala

PhD. in Sustainable Development working under School of Biotechnology

Research topic

- Value addition to underutilized Jackfruit seeds through phytochemical analysis and their beneficial application as fish feed

Course work completed GPA; 8.6

VOLUNTEER WORK EXPERIENCE

Amrita Vishwa Vidyapeetham, Amritapuri and Bangalore campuses

2/2023 – 30/2023

- Conducted Train, the Trainer and Mentors Workshop for Ph.D. scholars, Masters and Undergraduate students. Facilitated in sessions focused on Human Centered Design (HCD) and Participatory Rural Appraisal (PRA) data collection tools.
