

JUSTIN A. SCIOLI

Curriculum Vitae

Current Mailing Address: 317 W. University Ave Apt. #2
Lafayette, LA 70506, USA

Phone Contact: (+1) 337-315-5656

Email: justinscioli@gmail.com

PRIMARY RESEARCH INTERESTS:

Biodiversity, evolution, systematics, phylogenetics, morphology and taxonomy of marine invertebrates, especially crustaceans. Cryptic species, species complexes, and molecular species delimitation. Symbiosis, symbiotic host switching, host specificity, commensalism, and diversity of symbiotic lineages.

EDUCATION:

Ph.D., Environmental and Evolutionary Biology

University of Louisiana at Lafayette

Fall 2014-Spring 2022

Advisor: Dr. Darryl L. Felder

Dissertation Title: Integrative Taxonomy and Phylogenetics of Three Selected Clades of Snapping Shrimp (Crustacea: Decapoda: Alpheidae) in the genera *Alpheus* Fabricius, 1798 and *Leptalpheus* Williams, 1965

M.S., Biology

University of California, San Diego

Fall 2012-Spring 2014

Advisor: Dr. David Holway

Thesis Title: Pollinator Specificity and Pollen Limitation in the San Diego Mesa Mint, *Pogogyne abramsii*, a Vernal Pool Endemic

B.S., Biology: Ecology, Behavior and Evolution

University of California, San Diego

Fall 2007-Spring 2012

Education Abroad Program

Doshisha University, Kyoto, Japan

Spring 2010-Fall 2010

PEER REVIEWED PUBLICATIONS:

Scioli, J. A., Plouviez, S., & Felder, D. L. (2020). The complete mitochondrial genome of the symbiotic infaunal snapping shrimp *Leptalpheus forceps* (Decapoda, Alpheidae). *Mitochondrial DNA Part B*, 5(1), 629-630.

Scioli, J. A., & Anker, A. (2020). Description of *Alpheus gallicus*, a new deep-water snapping shrimp from Galicia Bank, northeastern Atlantic (Malacostraca, Decapoda, Alpheidae). *Zootaxa*, 4731(3), 347-358.

Venera-Pontón, D. E., Driskell, A. C., De Grave, S., Felder, D. L., **Scioli, J. A.**, & Collin, R. (2020). Documenting decapod biodiversity in the Caribbean from DNA barcodes generated during field training in taxonomy. *Biodiversity Data Journal*, 8, e47333.

Soledade, G. O., Terossi, M., **Scioli, J. A.**, Mantelatto, F. L., & Almeida, A. O. (2019). A new western Atlantic snapping shrimp of the *Alpheus macrocheles* group (Caridea, Alpheidae) revealed by morphological, molecular and color data. *European Journal of Taxonomy*, 581, 1-21.

Soledade, G. O., **Scioli, J. A.**, Terossi, M., Mantelatto, F. L., & Almeida, A. O. (2019). Congruence between morphology and molecular data supports the distinction between the snapping shrimps *Alpheus macrocheles* and *A. amblyonyx* (Caridea, Alpheidae). *Zootaxa*, 4624(1), 1-22.

RESEARCH AND TEACHING EXPERIENCE:

Graduate Teaching Assistant. Fall 2018-Spring 2021. University of Louisiana at Lafayette. Courses instructed: Fundamentals of Biology, Cellular and Molecular Engineering, Advanced Human Anatomy and Physiology.

Invited Taxonomic Expert. Summer 2019. Smithsonian Institution: MarineGEO. Participated in a Bioblitz in Corpus Christi, Texas, USA, as an invited expert on decapod crustaceans. Collected, identified, photographed and curated marine crustacean specimens for deposition in the department of invertebrate zoology, National Museum of Natural History, Smithsonian Institution, Washington, D.C.

Short Term Fellow. Summer 2018. Smithsonian Tropical Research Institute (STRI). Awarded the Ernst Mayr Fellowship to conduct original research on diversity and ecology of symbiotic snapping shrimp of the genus *Leptalpheus* at the STRI research station in Bocas del Toro, Panama.

Field Expedition Participant. Spring 2015. Smithsonian Marine Station. Participated in ongoing research activities on the decapod crustacean biodiversity of the Smithsonian Marine Station in Carrie Bow Cay, Belize. Collected, photographed, preserved and curated marine crustacean specimens.

Research Cruise Participant. Fall 2014. Louisiana Universities Marine Consortium (LUMCON). Participated in a weeklong research cruise in the Gulf of Mexico and Florida Straits aboard the R/V Pelican. Research activities centered around collecting crustacean specimens for monitoring ecosystem health following the 2010 Deepwater Horizon oil spill.

Laboratory Technician. Fall 2013-Spring 2014. University of California, Davis. Worked on projects related to pollinator diversity and native pollinator health in experimental farm hedgerows. Participated in planting and organizing experimental hedgerows as well as collecting, preserving and identifying pollinator specimens.

Graduate Teaching Assistant. Fall 2012-Spring 2013. University of California, San Diego. Courses instructed: Introduction to Organismic and Evolutionary Biology, Insect Ecology.

Undergraduate Research Assistant. Summer 2011. Operation Wallacea. Acted as an assistant to several ongoing field-based projects in rainforest and coral reef habitats in Buton and Wakatobi, Sulawesi, Indonesia.

CONFERENCE POSTERS AND PRESENTATIONS:

Scioli, J.A., & Felder, D.L. (2018). Does the evolution of symbiotic lifestyles affect diversification rate in marine crustaceans? Society of Integrative and Comparative Biology Meeting. San Francisco, USA. January 3rd-7th. Oral presentation.

Scioli, J.A., & Felder, D.L. (2017). Molecular phylogeny and biogeography of the *Alpheus* “macrocheles” species group. The Crustacean Society Mid-Year Meeting. Barcelona, Spain. June 19th-22nd. Oral Presentation.

Scioli, J.A., & Felder, D.L. (2017). Molecular phylogeny of the *Alpheus* “macrocheles” species group in the tropical western Atlantic uncovers undescribed diversity. Society of Integrative and Comparative Biology Meeting. New Orleans, USA. January 4th-8th. Oral presentation.

Scioli, J.A., & Felder, D.L. (2016). Molecular evidence of undescribed diversity in the *Alpheus macrocheles* (Decapoda: Alpheidae) species group in the Gulf of Mexico.
X Reunión Nacional Alejandro Villalobos. Mérida, Mexico. October 27th-30th. Poster.

PROFESSIONAL AFFILIATIONS: (Past and Present)

The Crustacean Society

The Society of Systematic Biologists (SSB)

The Society of Integrative and Comparative Biologists (SICB)

GRADUATE COURSEWORK:

Biogeography, Comparative Physiology, Developmental Biology, Population Genetics, Invertebrate Zoology, Molecular Evolution, Evolution and Adaptations of the Arthropods, Advanced Topics in Evolutionary Biology, Statistical Ecology, Insect Ecology.

SKILLED IN FOLLOWING SOFTWARE SYSTEMS:

Microsoft Word, Powerpoint, Excel, Access; FileMaker Pro; Adobe Photoshop, Illustrator; Clustal X; MUSCLE; AliView; MEGA X; Geneious; Sequencher; Mendeley; FigTree; RAxML; MrBayes; BEAST, BEAST2; Mesquite.

ADDITIONAL SKILLS:

PADI Certified Advanced Open Water SCUBA Diver: August 2011.

Speak, read and write Japanese with advanced proficiency and Turkish with moderate proficiency.
