City, state, and country of residence

karachi

Nationality

Pakistan

When did or will you finish your PhD?

September 2023

University Education

I have recently submitted a Ph.D. thesis to the faculty of Pharmacy and pharmaceutical sciences, University of Karachi, and expected to complete my degree requirement by September 2023.

M.Phill, Pharmaceutical Chemistry, University of Karachi, 2018

Pharm-D, Pharmacy, University of Karachi, 2013

What are your reasons for applying to be a Science Corps fellow?

I had 6 years of teaching experience at the national level, to excel internationally I believe that the science corps fellow program is the best opportunity for learning and getting experience at the international level.

In addition to your studies, describe any relevant experiences that have prepared you for a Science Corps fellowship.

I had 6 years of teaching experience at the graduate level in private universities located in Pakistan namely Hamdard University and Sohail University.

Where do you imagine yourself professionally in the future? Check all that apply.

Academic scientist in academia

In science education

As far as possible from science/education

Expand on your selection above and describe where you imagine yourself professionally in the near (two year) and long-term (ten year) future.

In the upcoming years, I will be engaged in writing the research proposal for addressing the new challenges in the field of nanoparticle synthesis and its role in medicinal chemistry and drug delivery system and securing the funding for that project so that I can conduct the research and published the results at international level. I will be an active member of professional societies, working on committees and looking for leadership roles, arranging different seminars and conferences. Work on departmental, college, and university committees, keeping both university and professional service in balance with expected teaching and research productivity.
