

MARTA PAOLUCCI

Limmatstrasse 125, 8005, Zurich, Switzerland

+41 779094065

marta-pao@hotmail.it

DOB 15.03.1992

Nationality: Italian

With an enthusiastic, proactive and results-driven character, I aim to make an impact to promote science education and develop innovation for the future. My diverse educational background in biotechnology, neuroscience and immunology helps me to achieve my goals successfully. On a personal level I am resolute, accurate and capable of working independently as well as in a team. I am able to communicate clearly and precisely, ready to listen and quick at understanding and responding to needs.

EXPERIENCE

PhD student

Sept 2018 – Present*

University of Zurich and University Hospital Zurich, Department of Dermatology - Zurich, Switzerland

Project: Testing the therapeutic efficacy of anti-peanut monoclonal antibodies in neutralising allergic reactions in pre-clinical mouse models

✓ Winner of Swiss Government Excellence Scholarships

*PhD dissertation: 08/02/2023

Post-graduate fellow

Feb 2017 – Feb 2018

International School for Advanced Studies (SISSA) - Trieste, Italy

Project: Optimisation of an *in vitro* aggregation assay for the early detection of Parkinson's and Lewy Body diseases

✓ Winner of SISSA post-graduate grant

Master's thesis fellow

Mar 2016 – Oct 2016

University Hospital Zurich, Institute of Neuropathology - Zurich, Switzerland

Project: Investigation of microglial signal regulatory protein α role in a mouse model of prion disease (worked in BSL3 lab)

✓ Winner of Trieste International Mobility grant

Bachelor's thesis fellow

Nov 2013 – May 2014

Department of Biology and Biotechnology 'L.Spallanzani' - Pavia, Italy

Project: Characterisation of molecular patterns involved in Ca^{2+} signals genesis

EDUCATION

PhD – Microbiology and Immunology

Sept 2018 – Present*

University of Zurich

Thesis: Pre-clinical evaluation of novel human-derived anti-peanut monoclonal antibodies for the treatment of peanut allergy

International MSc - Neuroscience

Oct 2014 – Dec 2016

University of Trieste

Grade: 110/110 cum laude. Thesis: Prion pathogenesis in mutant mice for the signal regulatory protein alpha (SIRP α)

BSc - Biotechnology

Oct 2011 – July 2014

University of Pavia

Grade: 103/110. Thesis: The role of Ca^{2+} in pulmonary hypertension

High school graduation

Sept 2006 – July 2011

'Liceo Scientifico Sperimentale Leonardo'

Grade: 83/100. Specialisation in languages

EXTRA & SKILLS

- Courses: Scientific Writing, Scientific Presentation Skills, Scientific Integrity, Research Ethics for Life Scientist, Good Clinical Practice.
- Software: Microsoft Office, EndNote, GraphPad PRISM, Adobe Illustrator.
- Training in laboratory animal experiments (LTK courses).
- Teaching activities.
- Active participation at international conferences.
