

Apply for a Science Corps Fellowship - Entry #3202

Name

Victoria Kimindu

Emailvickimindu@gmail.com**Gender**

Female

City, state, and country of residence

Nairobi

Nationality

Kenya

When did or will you finish your PhD?

December 2023

University Education

PhD. Food Science and Technology, University of Nairobi KENYA, September 2019-December 2023.

MSc. Animal -Derived Foods, University of Copenhagen DENMARK, September 2011- October 2013.

BSc. Food Science and Technology, Egerton University KENYA, August 2005- November 2009

What are your reasons for applying to be a Science Corps fellow?

I fall short of teaching experience and I desire to acquire international exposure in instructing University students.

In addition to your studies, describe any relevant experiences that have prepared you for a Science Corps fellowship.

I have served as an intern for six years at a national research institute where on a regular basis I train our technologies to students at elementary, high school through to University.

Where do you imagine yourself professionally in the future? Check all that apply.

Academic scientist in academia

Doing science in industry

Administrative role in industry or academia

Expand on your selection above and describe where you imagine yourself professionally in the near (two year) and long-term (ten year) future.

Following my graduation, I anticipate getting a senior administrative position at my Institute. Currently the institute is short of technical support due to weak succession planning. Specifically I see myself heading the Meat Science department at the Institute
