

MARKUS HOLZNER

Zurich, Switzerland | 0041 78 306 24 53 | maholzner@ethz.ch

EDUCATION

ETH Zurich

Zurich, Switzerland

Ph.D. in Genetics

Dec 2023

- Research: Worked in team of 9 to conduct research funded by Swiss SNF on early embryo development; led to 4 publications

LMU Munich

Munich, Germany

Pharmacy (State Examination)

Oct 2019

- Completed 2 Pharmacist State Exams (4-year, full-time university program)

M.Sc. in Pharmaceutical Sciences, GPA: 1.52/5.0

Apr 2019

- Leadership: Represented 15 students by organizing exam schedule and assisted Dean with accreditation of study program

B.Sc. in Pharmaceutical Sciences, GPA: 2.32/5.00 (top 10%)

Sep 2016

- Leadership: Represented 50 students and coordinated exam and lab schedule

PROFESSIONAL

ETH Zurich

Zurich, Switzerland

Ph.D. Student in Genetics

Nov 2019 – Present

- Identified and characterized 2 new factors of early embryo and neural development; resulted in 1 paper published as 2nd author in peer-reviewed journal and currently preparing 3 additional publications as lead author with further insights
- Presented findings at 3 conferences to total 250+ scientists supported by highly competitive CHF 1K travel grant (1 of 5 out of 70); forged 4 valuable collaborations and nurtured partnerships with 3 influential researchers for future research
- Mentored 7 B.Sc. and M.Sc. students on how to develop independent research projects (i.e., designing experiments, academic writing); 2 students contributed significant results and will be co-authors on 1 paper

The University of Hong Kong

Hong Kong SAR

Masters Thesis Student

Jul 2018 – Mar 2019

- Established ground-breaking protocol for disease-related study by conducting research and analysis in team of 2; drove research by fostering collaboration with prestigious Research Institute in Guangzhou, China through leveraging network
- Published findings as co-author in 3 high-impact journals (90+ citations), defended results to 2 expert committees, presented findings at 2 conferences (200+ total attendees), and received 1.00/5.00 GPA for final thesis

Roche

Basel, Switzerland

Student Intern with Stem Cell Assay Division (pRED)

Feb 2018 – Jun 2018

- Collaborated with team of 10 to study neural disease models by performing experiments; identified lack of model scalability
- Presented findings to sr. leadership, leading to termination of project and CHF ~0.5M in savings

The University of Oxford

Oxford, United Kingdom

Student Research Fellow

Oct 2017 – Feb 2018

- Built partnership between University of Oxford and industrial vendor for small molecule inhibitors; collaborated with 3 stakeholders and developed novel anti-cancer compounds in collaboration with Nuffield department of medicine
- Spearheaded communication between 2 university experts and commercial experts through conference calls; presented to 3-person Board in Oxford and Munich, leading to improved yield of compound from 3% to 15%

LEADERSHIP

BioMed Graduate School, ETH, UZH, Committee Member

Feb 2020 – Present

- Partnered with 16 university reps to optimize screening of 200+ candidates; reduced admissions process wait time by 1 week
- Managed team of 8 to deliver 2 professional and personal development events for 100 students

Institute for Molecular Health Sciences ETH, Board Member

Feb 2020 – Present

- Advocated for 100 PhDs and PostDocs on 12-member Executive Board; led team of 3 to organize 2 networking events (~200 total attendees) and speaker series (50 attendees), raising CHF 3K and securing notable keynote speaker

PERSONAL

- **Technical Skills:** Excel, PowerPoint, Unix
- **Languages:** German (native), English (fluent), French (basic), Italian (basic)
- **Selected Publications:** 4 total publications (4 published; 4 in progress with 3 as 1st-author) in notable journals (*Nature Communications*, *Science Advances*, *Seminars in Cancer*, *PLOS Biology*); 100+ citations total
- **Entrepreneurship:** Worked in team of 3 to develop and pitch business plan and 5-year objectives for Healthtech startup with CHF 150K funding in Bio Entrepreneurship Program accelerator at University of Zurich; won 3rd place out of 10 teams
- **Interests:** Exploring new cuisines (aspiring to be pro home chef), Avid runner (half marathon PR: 1:26), Learning French and Italian (365+ day streak on Duolingo), Judo brown belt (10 years of competitive fighting)
