

Apply for a Science Corps Fellowship - Entry #3243

Name
Mahnoush Mohseni
Email
mohseni@purdue.edu
Gender
Female
City, state, and country of residence
West Lafayette
Nationality
Iranian
When did or will you finish your PhD?
In my I20, it is written Dec 2027, but I will finish it earlier.
University Education
Ph.D. Student studying Civil Engineering program at Purdue University
What are your reasons for applying to be a Science Corps fellow?
I have faced an issue concerning my funding, and I believe that, for the upcoming Spring semester, I should actively look for a position. Unfortunately, the number of available Teaching Assistant (TA) positions in our department is limited.
In addition to your studies, describe any relevant experiences that have prepared you for a Science Corps fellowship.
I have been Teaching Assistant for several courses and also have eight years of related experience in my field of study.

Where do you imagine yourself professionally in the future? Check all that apply.

Administrative role in industry or academia

As far as possible from science/education

Expand on your selection above and describe where you imagine yourself professionally in the near (two year) and long-term (ten year) future.

I want to hold a high-level administrative position within the next ten years, maybe as a director or president in university to direct the development of academic programs, or in industry with a concentration on strategic leadership. My overarching objective is to use my experience to foster innovation and positive change, whether through managing research, serving as a mentor, or advancing organizational performance while utilizing my background in science and education to make intelligent choices.
