Email: Mohseni@Purdue.edu

Summary

Persistent and hard-working project coordinator with over seven years in project management and a solid research background. Proven track record of working in project controlling with relevant experience in project planning and scheduling, change management, progress management, human resource management, leading and organizing different team members to improve the quality and productivity. Now I am interested in expanding my knowledge in related fields for making more progress.

Research Interests

- Construction Engineering and Project management

Education

Ph.D. in Civil Engineering with the focus on Water & Waste Management

Purdue University – West Lafayette, U.S.
January 2023 until now

Master in construction and project management

Mehralborz University - Tehran, IRAN
September 2012 to July 2014
GPA: %81 (15.81/20)

Bachelor in architecture

Qazvin Azad University - Qazvin, IRAN
September 2006 to September 2010
GPA: %80 (15.70/20)

Honor

- Ranked 70 out of 7,000 participants in the nationwide entrance exam for graduate studies (Top 1 percent).
- Received awards due to being the best qualified employee in doing a project, named Niayesh Mall.

Publication

Article

“The impact of competence Models for managing construction projects”

Project Management, Mehralborz University (February 2015)

Conference

“Recognition and rooting reasons of Gilan’s vernacular architecture transition”

4st International congress on Civil engineering, Architecture and Urban Development, Shahid Beheshti University (October 2016)

Courses and Qualifications

- BIM course at Purdue University
- CTAM courses provided by BAMI-I
- PMP course, passed in Tehran university.
- Attending project and construction management association in Tehran university.
- Participating in psychological courses, educating the methods of resolving human conflicts in workplaces for achieving solidarity and cooperation and alleviating critical situations.

Academic Experience

Teaching Assistant

Purdue University
Spring 2023

Teaching assistant of prof. Graff for “Foundations of Architectural Design”.

Teaching Assistant

Purdue University
Fall 2023

Teaching assistant of prof. Graff for “Lifecycle Engineering and Management of Constructed Facilities”.

Teaching Assistant

Mehralborz University
Fall 2017

Teaching assistant of prof. Fesharaki for “Science and Technology of Construction Materials in buildings”, MSc in project management.

Work Experience

Director & Project planner and controller

Tak institute, NGO for Autism
Jan 2022 until Oct 2022

- Providing strategies to initiate some projects in terms of meeting the goal of developing and teaching the approach of Applied Behavior Analysis (ABA) and method of improving the behavioral skills of autistic individuals to educators all around the country.

- Setting a schedule plan for the agreed projects, defining the procedure and tasks of the personnel, and monitoring the progress of the plan.
- Running and managing two of the suggested campaigns, aiming at raising public awareness about autism.

Project planner and controller

Parsa Nazm Sazeh Caspian
June 2019 until Dec 2021

- Managing human resources, delegating tasks to team members and directing the company
- Accelerating the engineering progress while considering the expenditure by setting and developing complete ship work schedules for specific areas, as required.
- Accomplishing all deliverables on schedule by monitoring and controlling planned activities through all phases of project lifecycle, creating and updating project plans in Primavera P6 for each contract.
- Constant interface with suppliers, engineering and consulting companies.

Project planner and controller

Iran Mall (https://en.wikipedia.org/wiki/Iran_Mall)
March 2016 – February 2019

- Project planner and Controller, working in the largest mall in the world as the leader who established a 200-member team and Delivering planning services in a safe, timely and cost-effective manner.
- Cutting the budget by coordinating the change management process and making the connection between the engineering team members.
- Being Responsible for engineering progress management in the most important area of the shopping, mall and calling meetings in order to address issues happening during the work
- Enhancing the project accountability by following-up the performance of projects (Earned Value Management).
- Operating project information by publicizing and reporting periodically to top managers and controllership of prepared daily and weekly progress reports.
- Analyzing and monitoring suppliers' invoices and claims. documenting the cause of the delay and creating delay claims for each contract and also making monthly reports of them.

Project planner and controller

Niayesh – shopping mall project
November 2015 – February 2016

- Revising schedule plans and controlling the project process.
- Increasing the project efficiency in terms of time and cost by assembling teams to complete their tasks at the appointed time.

Project planner and controller

Darous building - residential project
June 2015 to November 2015

- Project scheduling & monitoring in Microsoft Project (MSP) with weekly reports.
- Preparation of Project Charters and Detailed Reports.

Architect

Architectural Aras Saze (Part Time)
July 2015 to October 2015

- Creating building design drawings with Computer-Aided Design (CAD) applications.

Architect

Arvand Consultant Engineers
April 2012 to May 2015

- Preparing design and detailed drawings with Computer-Aided Design (CAD) applications.
- Designing the outward appearance and interior plans while considering the structure, mechanical and electrical factors.

Language Proficiency

- English: 7 in IELTS (Speaking: 7.5 – Listening: 6 – Writing: 7 – Reading: 7.5)
- Persian: Mother tongue
