

DR. RENUKA SHARMA

HEAD- GOVERNMENT INITIATIVES-GRANTS
MANAGEMENT AND TBI.

 +91-8130870008

 renuka.brahmin@gmail.com

 Noida, India

 Dr.RenukaSharma

EDUCATION

- Ph.D. (Virology)
- M.Sc. (Hons.) Biotechnology
- B.Sc. Biotechnology

SKILLS

- Proven track record in developing and implementing successful government initiatives
- Strong leadership skills and ability to motivate and inspire a team
- Exceptional analytical skills and ability to synthesize complex information
- Strong communication and negotiation skills, with the ability to build and maintain relationships with stakeholders
- Proficient in project management, including budgeting, planning, and execution
- Strong knowledge of government policies and regulations

EXECUTIVE PROFILE:

To secure a leadership position within the Entrepreneurship Division, utilizing my skills, experience, and passion for driving innovation and business growth. I am to contribute my expertise in strategic planning, team management, and entrepreneurial mindset to foster the success of the organisation and it's venture.

EXPERIENCE

- **HEAD TECHNICAL BUSINESS INCUBATOR, NOIDA INSTITUTE OF ENGINEERING AND TECHNOLOGY, GREATER NOIDA.**
- **PROGRAM SUPPORT PROFESSIONAL | MINISTRY OF SCIENCE AND TECHNOLOGY**
- **ASSISTANT PROFESSOR - RESEARCH (CGC)**
- **RESEARCH ASSOCIATE (AMITY UNIVERSITY)**

KEY RESPONSIBILITIES:

- Lead the development and implementation of government initiatives aimed at improving citizens' lives. Collaborate with government officials, stakeholders, and subject matter experts to develop policies and programs. Develop and manage budgets, timelines, and resources to ensure successful implementation of initiatives.
- Relationship Management: Develop and manage long term relationships with corporates, startups, investors, Government, Media and other major stake holders in the startup ecosystem.

- **Project Management:** Ensure that the various programs related to partnerships are going according to plan by actively tracking activities and managing stakeholder expectations.
- **Partnerships Building:** with various Projects with industries, collaborations, Industry Academia Projects.
- **Corporate Social Responsibility:** Identifying various CSR partners for potential funding opportunities, impact reporting, submitting utilization certificate and statement of expenditure in a timely manner.
- **Event Management:** Organize sessions, boot camps, demo days, start-up mixers like investor, mentor-mentee, industry etc.
- **Outreach:** Responsible for all outward communication from NIET including social media, blogs, press release, newsletters etc.
- **Communication and Reporting:** Share regular updates of TBI with relevant partners.
- **Promote TBI and create visibility amongst stakeholders involved in technology commercialization, entrepreneurship and economic development.**
- **Startup mentoring:** Interact and understand the progress of startups incubated on a regular basis, understand their requirements and provide relevant support and connections when required.
- **Start-up Screening –**Assist in screening startup applications for various programs, assess technology, novelty, business potential, competition etc.
- **Participate actively in startup events to identify technology startups with growth potential.**

PARTNERSHIPS:

- United Nations for Women Entrepreneurship Program
- Stanford University -Seed Spark Entrepreneurship Program
- Tie Up with Accelerators for Accelerators programs
- Part of SIDPI-KPMG cluster in NCR.
- Co-Incubation with I-Create and GIMS(Government Institute of Medical Sciences)

WEBINARS:

- Repairing Reproducibility.
- Resistance to microbial growth: Lets fight against the superbugs.
- 3D Tissue Modelling.
- PROQUEST
- A green technology for development of curcuminoid extract as an anticancer agent
- Allergen Management in Food Processing

PATENTS:

- Gene expression classification.
- IoT Based Solar Assisted Climatic Reader Farming Robot.
- A Novel automated security model for COVID-19.
- Copyrights: IoT Based Automatic
- Vertical Medicinal Plant Cultivation of Critically Endangered Nardostachys Jatamansi
- IoT based cost effective oxygen concentrator.

- A smart electrochemical standing ventilator system for Intensive Care Unit
- Foetus heart rate and respiratory rate measuring device during pregnancy (Application Number-348602-001)

FACULTY DEVELOPMENT PROGRAMME:

- Innovative trends in teaching learning process and research methods in accordance with Industry Requirements
- Nutraceuticals: Basic and Beyond.
- Bridging the gap between academia and industry through advanced pedagogical techniques.
- Artificial Intelligence in Healthcare

POSTER PRESENTATION:

- Got selected for poster presentation in international congress on Virology, USA.
- Presented poster in International Conference Plants, Pathogens and People from 23-27 Feb, 2016.
- Presented poster in International symposium on Gemini viruses from 7-10 Nov, 2016, New Delhi.
- Presented poster in Virocon 2016, from 7-10 Dec, 2016 at IIHR, Bengaluru.

RESEARCH PAPERS/BOOKS:

- A new variant of croton yellow vein mosaic virus naturally infecting wild sunflower in India in virus disease, volume 29, 2018.
- Book Chapter in Edible and Medicinal Mushrooms of the Himalayas by Taylor and Francis.
- Croton Yellow Vein Mosaic Virus Found Infecting Naturally Growing Weeds in India. Volume 35, 2019.
- Book Chapter: COVID 19: Safety of Vaccines: Lexicon International Publisher.
- Book Author: Medical Microbiology and Virology.
- Cell Biology Book
- Microplastics: An invisible danger to human health.
- Blood group susceptibility Towards 19 and other diseases.
- High Performance hybrid Graphene Nano filters as a total dissolved solid remover.
- Microorganisms as vital additives in waste management.
- Relevance of LDL genetic polymorphism as Cardiovascular Diseases Risk Estimates.
- **75 Impactful Startups-DST Incubation Program.**
- Genetic diversity among bread wheat genotypes as assessed by SSRs.

TRAINING/WORKSHOP /CONFERENCE:

- Training at Panjab University in various techniques.
- Industrial Training at Kingfisher for 2 weeks at Ludhiana in fermentation technology.
- 2 months training at Clonegene, Noida.
- 6 months Dissertation work in Directorate of Wheat Research (ICAR), Karnal. On "Molecular Genetic Variability among Indian Wheat Genotypes by using SSR and SNP markers.
- 2 days' workshop on Agri-Bioinformatics promotion program at Directorate of Wheat Research (ICAR).
- One-day workshop on Scientific Writing and publishing from American Society of Microbiology
- Workshop on Flow Cytometry & Q-PCR: Principles & Clinical Applications, Amity University, Noida.
- Bioinformatics workshop on Docking Studies by Schrodinger
- 4- days workshop on Ethics in Biomedical and Health Research : Perception and Practice.
- Grant writing and Funding Opportunities organized by DBT/Welcome Trust India Alliance.
- Selected as Jury in Smart India Hackathon ,2022.
- Attended Investment Management Training Programme by SIDBI and KPMG.
- Attended Incubator Management Training Programme by SIDBI and KPMG.
- National Intellectual Property Awareness session.
- ISBA managers conclave at IIT Mandi.
- One-month training on Women Entrepreneur development programme funded by DST.
- National conference on Immune Mechanism in Host Pathogen Interactions: Emerging Trends.
- International Congress on Virology – Virocon 2013.
- Immersion Programme for managers of incubation centers by BIRAC.
- Participated in Global Education and Research Summit.
