Phone: +13344399107

EDUCATIONAL BACKGROUND:

Institution attended	Degree awarded	Graduation Year	Major
University of Gondar, Ethiopia	MSC	2020	Microbiology
University Gondar, Ethiopia	DVM	2017	Veterinary Medicine
Debark University, Ethiopia	Diploma Certificate	2021	Higher education Diploma program
Tuskegee University, Alabama state, USA	Ph.D. student	-	Biomedical sciences/IDPB

EMPLOYMENT OR WORK EXPERIENCE: -

Research Assistant: I am working on a project aiming to investigate the role of Gremlin-1 and PKA for the development of stomach cancer in Vivo. This is part of my Ph.D. dissertation at Tuskegee university, Tuskegee, Alabama

Dean: 2/22/2021 – 12/3/2022 - College of Agriculture and Environmental Sciences, Department of Animal Science, **Debark University**. My job includes both teaching and research. During this period, I taught several courses and mentored students in the Department.

I worked on research projects such as:

- ✓ Community-based breeding program of semen sheep which will be done for the year 2021/2022. The objective of the project is to select the best-performing semen ram so that it can be disseminated to the community of north Gondar zone sheep farmers.
- ✓ Review on the adaptability of exotic day-old chicks in Ethiopia, Departmental research, the objective of this review is to assess the adaptability of exotic day-old chicks in Ethiopia and to know the factors affecting the adaptability of day-old chicks.

Coordinator for Research and Community Service office: 11/10/2020 – 2/21/021 College of Agriculture and Environmental Sciences, Debark University.

Lecturer: January 2018 – October 2018: Agriculture and Environmental Science, department of animal science, Debark University,

Study leaves to pursue master's degree: - From October 2018- July 2020

Teaching Assistant (during my externship): October 2016 to July 2017: College of Veterinary Medicine, Gondar University. I served as a teaching assistant in the Department and my job included the following:

Teaching - I taught freshman veterinary medicine students the courses; veterinary gross anatomy, vet physiology, vet histology, and vet embryology as these courses are quite tough for beginner students.

Research- Primarily I did my DVM thesis but along with that also get the chance to cooperate with my classmate's research works because we did our thesis funded by a mega project focused on reducing

young stock mortality in Ethiopia. As part of that mega project my other two friends' thesis titles were technically related and we were mentored by the same mentor, Dr. Tsegaw Fentie who make me and my friends know more about what is research in general.

Laboratory experience- PCR, Western blotting, Immunohistochemistry, H&E, PAS staining

Community service- Rabies awareness creation training and dog vaccination in and around Gondar town. Additionally, I have been giving clinical services at the weekend at the University of Gondar teaching veterinary hospital.

COMMUNITY SERVICE

- Rabies Control and Eradication program around the north Gondar zone.
- Awareness creation by educating the people during the Covid- 19 pandemic.

AREAS OF INTEREST

My research focus is mainly on biomedical sciences such as oncology, Cell and gene therapy, drugs discovery, immunological response against viral and bacterial infections, Manipulation of signaling pathways

COURSES TAUGHT:

As a lecturer I taught the following courses:

- ✓ Anatomy and physiology of domestic animals
- ✓ Reproductive physiology
- ✓ Vet parasitology
- ✓ General microbiology
- ✓ Veterinary public health and food hygiene
- ✓ Animal health and disease control
- ✓ Biochemistry for animal science students
- ✓ Senior Seminar project

EXTERNSHIP AND SHORT-TERM TRAINING

EXTERNSHIP

The University of Gondar veterinary teaching hospital (2016-2017)

During this one-year program, I learned a lot about Diagnosis, treatment, and intensive care of different animal species, was involved in spaying and neutering, minor surgery and wound management, and assisting surgeons, worked on a Poultry farm, Dairy farm, Bee farm, and fish farm, in Abattoir experience for ante mortem and postmortem meat inspection at Gondar Elfora Abattoir, in research, sample collection for laboratory diagnosis and many other activities.

SHORT-TERM TRAINING AND SUMMER INSTITUTS:

- ✓ **Ethiopian National Veterinary Pathology workshop:** Training at the University of Gondar organized by the College of Veterinary Medicine and Animal Sciences in collaboration with the University of California and the University of Georgia, Athens, Georgia. March 25-29, 2019.
- ✓ **One health Epidemiology of food born and zoonotic diseases:** Training given by the Ohio state university in the University of Gondar, Ethiopia from August 6-9, 2018.

- ✓ **Animal Welfare Training:** The Ohio State University Partnership, *One health summer institute* at the University of Gondar, Ethiopia. August 01- 03, 2017.
- ✓ **Training on Introduction to International Trade and Risk Analysis:** The Ohio State University Partnership *one Health Summer Institute* held at the University of Gondar, Gondar, Ethiopia, July 24-28, 2017.
- ✓ **Farm to table program and public health rotation:** At the Ohio State University sponsored by the World Organization for Animal Health, Columbus Ohio, USA from October 31 – November 12, 2016

PUBLICATIONS AND CURRENT RESEARCH:

1. **Abate, F. M., & Fentie Kassa, T. (2023).** Isolation and identification of *Mannheimia haemolytica* and *Pasteurella multocida* from symptomatic and asymptomatic sheep and their antibiotic susceptibility patterns in three selected districts of north Gondar zone, Gondar Ethiopia. *Veterinary Medicine and Science*, 1–9. <https://doi.org/10.1002/vms3.116>

AWARDS GIVEN:

I have been awarded two recognition certificates by the university of Gondar president for my excellent academic record in 2015 and 2016.

PROFESSIONAL MEMBERSHIP:

- A member of an academic committee to screening Government sponsored Ph.D. candidates in 2021 at Debark University
- A member of the department committee of animal sciences
- A member of the academic council of the college of agriculture and environmental sciences
