

Apply to be a Science Corps Fellow - Entry #3378

Name
Samuel DalCais
Email
dalcais@colostate.edu
Gender
Male
Residence: City (State), Country
Colorado, USA
Nationality
USA
When did you or do you expect to complete your PhD?
May 2026
Please tell us briefly about your university education (institution, city, country, year)
I graduated from Wells College with a BA in Chemistry in 2021 and began my PhD in Physical Inorganic Chemistry at Colorado State University in August 2021 and am expecting to graduate in May 2026.
Why would you like to be a Science Corps Fellow?
I would like to be a Science Corps Fellow for several reasons. First and foremost that I love science and am passionate about teaching it. I have taught four semesters of undergraduate chemistry during my PhD and would love to continue teaching after I graduate. Second is that I love the Philippines and its people. I spent three months there in 2024 and have been longing to come back ever since.
In addition to your studies, please describe any prior experience that may help you as a Science Corps Fellow.
As I mentioned above, I've been to the Philippines and very much enjoy living there. I've been to Manila, Cebu City, and Davao City. I find that I get along very well with Filipino people and believe that will help me immensely in this role.
Where do you imagine yourself professionally in the future? Check all that apply.
Scientist in academia
Please expand on your selection above and describe where you imagine yourself professionally in the near (~2 year) and long-term (~10 year) future.

In the near future, I imagine myself pursuing either a teaching role in Science Corps (hopefully!) or a postdoctoral fellowship in an area adjacent to my PhD research (such as molecular magnetism or development of MRI probes). In the long-term future, I imagine myself as a principal investigator in the chemistry department of a big research university, mentoring my own PhD students and performing cutting edge research in magnetism and MRI.

P.S. I'd like to note that I am in Hawaii at the moment where the time is 10:15 pm, Aug. 31st so I am submitting by the Aug. 31st deadline as per my time zone.

Please upload your CV (.pdf)[Curriculum-Vitae.pdf](#)**How did you find out about Science Corps?**
